

# TOP 5 REASONS TO USE RHINO 6000 & 6500 PRINTERS

1

## Enter Data Just Once to Label Your Entire System.

- Enter your data just once; then quickly switch between label styles without re-entering the data. Press the V.WRAP key to print a label wrap, PPANEL to print a corresponding patch panel label, FIXED to print a corresponding face plate label, etc.
- Your whole system can be labeled in minutes, not hours!

2

## “Hot Keys” Speed Up Labeling.

- Fast, easy label formatting at the touch of a key.
- Built-in library of 250+ categorized industry terms and symbols or store your own custom library of terms
- Memory to store and recall 1000+ custom labels
- Quick font formatting in 8 sizes, 6 styles, plus barcodes

3

## PC Compatibility.

- Download label files from Microsoft® Excel or other Windows®-based applications.
- Upload and save label files created in the field.
- Instantly format labels for specific manufacturer equipment using downloadable templates ( including Honeywell, Leviton, ICC, SMP and others).
- Allows labels to be made off-the-clock, then either downloaded to the RHINO 6000 or 6500, or pre-printed and bagged for the field. A great time and money saver!

4

## RHINO CONNECT Software.

- Easily create labels using the integrated step-by-step wizard.
- Brand your work by inserting your company logo or any customized graphic.
- Quickly serialize data with built-in wizards.
- Import data from any Windows®-based program
- Download labels to the RHINO 6000 or 6500 for on-site printing; upload and save new label files for documentation purposes.

5

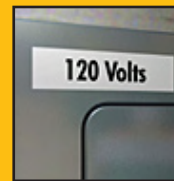

## Unique Design Features.

- Rechargeable Lithium-ion battery pack for hours of use.
- Easy-change label cartridges with no-hassle tape access door.
- Large, easy-to-see keys and backlit display.
- QWERTY keyboard on the RHINO 6500.
- Accepts labels up to 1” wide.
